## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims 34 and 35, drawn to an invention nonelected with traverse in Paper No. 9. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4, 5, 7-18, 20-22, 24-28 and 36-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The above claims rely on the term "about" to define numerical ranges. This rejection is maintained because applicants have not provided any specification basis for defining the scope of the term.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 7-15, 18, 20-22, 27, 28, 31, 33 and 37-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fuji (Jap. Pat. No. 4267933) in view of applicants' admissions (pages 1-3 of instant application) for the reasons set forth in the last Office Action.

Claims 16-17, 24 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fuji in view of applicants' admissions and in further view of (pages 1-3 of instant application) and in further view of Ebara (JP Pat. No. 52122281) for the reasons set forth in the last Office Action.

Claims 26, 29, 30, 32 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fuji in view of applicants' admissions and in further view of Bolay *et al.* (Jnl. of Colloid and Interface Sci.) instant application)(hereinafter Bolay) for the reasons set forth in the last Office Action.

### ***Response to Arguments***

Applicant's arguments fail to comply with 37 CFR 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references. Further, applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections.

Art Unit: 1761

It is noted that on page 1 of applicant's specification they state that cold filtering beer is notoriously well known and further discuss the steps the prior art has taken to overcome clogging of beer filters. Therefore, the prior art anticipates this aspect of the claimed invention.

### *Conclusion*

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
